

GrabIT

It's a unique concept of Game whereby Player's hand and eye movement is put under the challenge in order to check the coordination .

Game Play : Five Rubber Batons are attached on Arc shaped Iron on both left and right side and they fall from the height randomly and the player has to catch them in air swiftly in order to demonstrate their best abilities against their friends and families.

Application : Gyms & Fitness Centers , Kids Game zone, recreational centers, Resort spots, schools sports competition, Festivals , Carnivals ,Events , Beaches etc.
